### Hack ATE

#### MetaHack: WebRTC for Unity & WebXR

- Boîte de réception
- M Aujourd'hui
- Ursent
- Important
  - Travail
- lob
- Personnel
- Administratif
- Divertissements.
- Vacances.
- Médies.
- Médiéval
- -DMC
- AMHE
- Projets

- Keyboard with contour hands + touches effect on index distance + appearance on context (keys, appsicons, emoticones, ...) + 3D screen effect (parallax/portal)
- Web Fitness XR.
  - Walk with phone in pecket Bike
- NeuroXR
- pyomyo websocket javascript examples.
- database hands leap motion + emg.
- try new machine learning
- POC Future AR Life Use: The idea is to create tools that probably will be used when AR will be consumer ready. How it will replace the smartphone and will be used in daily life.
- AR Cards Game: Card game in see-through augmented reality where ArCodes are replaced by card assets.
